

Do you like the appearance of the SetStats app prototype?

6 responses

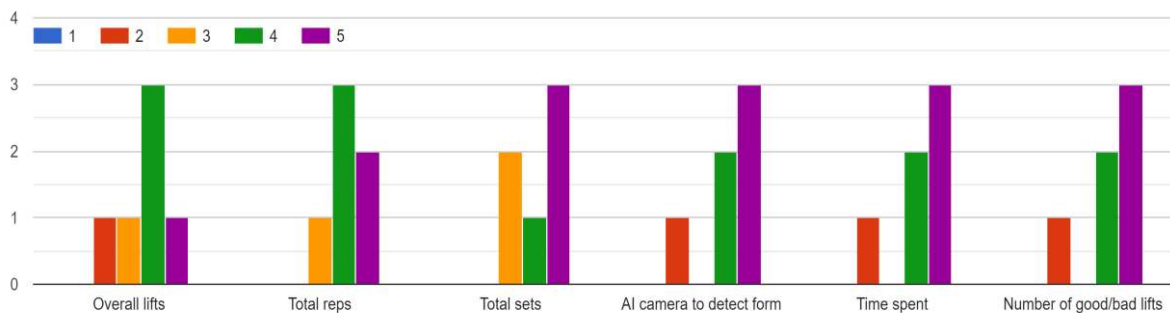

How convenient do you find the app layout?

6 responses

How relevant are the following features in the app?

Additional feedback or suggestions

6 responses

1. I know it's a prototype but design looks very robotic, it is more functional than look good
2. Why use this when a youtube video can give a more detail description how to perform an exercise
3. Very efficient and convenient to use
4. App interface is a bit old school
5. Interface is very convenient, I'd like to see final result asap
6. I have no issues, presented quite well and easy to understand and manage
